Mrs. Lichter,

Excuse me, but I do not believe it is proper procedure for you personally to determine that you have or have not violated MCA Policy. It is the MCA Board's job, without your participation of course, to address the question as to whether you have or have not violated MCA Policy. Furthermore, this is not a personal attack on you, but a perfectly acceptable accusation that has been leveled at you in the proper manner, as laid out in the aforementioned Policy, that you and the MCA Board have complained about ad nauseam as not being utilized properly over the last several weeks. For you to insert yourself into this conversation and try to subvert the process that you yourself voted to establish, only further exacerbates the situation and makes any appearance of a proper review of the potential policy violations appear to be a sham. I also find that your email to me is replete with half truths and omissions of fact.

Once again, I must ask if the Board of Mason Classical Academy is refusing to address this ever growing list of policy violations in the appropriate venue, an open board meeting?

Sincerely,  
Chris Durst
