Mr. Durst,

As Mr. Whitehead has communicated to you on multiple occasions, this matter was brought to my attention. I discussed the matter with multiple people at the School and obtained Mr. Licher's side of the story. Mrs. Licher was not involved in the matter other than facilitating communication with Mr. Licher.

In the hope of answering all of your questions, Mr. Whitehead discussed the matter with you via phone on multiple occasions. There is no evidence presented to me that Mr. Licher engaged in any activity at the School whereby he was unsupervised with children that would require him to have a Level II clearance. I advised Mr. Whitehead communicate with you as you are reportedly civil in your conversations with him. I had concern about any other board member reaching out to you based upon your previous emails to them.

If you have evidence that Mr. Licher had unsupervised contact with children at a Mason school activity please forward it to Mr. Whitehead who will bring it to my attention.
