Your concern has been investigated in the routine course of business at the School and reportedly discussed multiple times with you and Mr. Whitehead. I have discussed it with the necessary parties and is now considered closed due to any evidence of wrongdoing on the part of Mr. Lichter. I would suggest you reread the Mason policy regarding the difference between volunteer positions involving interaction with children as opposed to coming to Mason when school is not in session and doing work at the school. You may also read the Jessica Lunsford act and other relevant Florida statutes for when Level II clearance is required.

If further facts warrant discussion I will evaluate them.

Finally Mr Durst, emails like this one that I was forwarded from you a month ago are concerning. Please refrain from further such communication. Again, if you have further concerns, you may have further conversation with Mr. Whitehead.

Board Members,

It is unfortunate that it has come to this, but it appears that the games you are playing are about to come to an end. I would hope you would choose the honorable way out and allow the school to survive, however I don't think any of you have the moral fortitude to do what is right.

I also hope that the three of you and your families are planning on moving from this area once all is said and done, as your names will be "mud" in this town. Trust me when I tell you that all of these families that you are hurting by hurting this school will take this personally and make sure any business you had in this town will be destroyed forever. Sounds vindictive doesn't it? Well, you reap what you sow!

We all know the three of you will stand up and scream, "It's CCPS fault!! We told you so!!!" But, your shenanigans have become more and more transparent the last year and the people that still support you are starting to see you for
